

SANITARY CONNECTIONS

Plast-O-Matic is now providing factory installed sanitary connections on a number of high purity valves and piping products.

These optional connections are typically offered on . . .

- Ball Valves
- Pressure Regulators
- Relief/Backpressure Valves
- Diaphragm Valves
- Check Valves

Precision CNC machining and 100% testing ensures the clean, leak-free connections required with "tri-clamp" or "tri-clover" fittings. If you have an application that utilizes sanitary connections, we invite you to contact our Technical Group in Cedar Grove for pricing and availability at [973-256-3000](tel:973-256-3000) or info@plastomatic.com
